NEW OFFICERS TO TAKE OATH

County Officials Will be Sworn in Monday.

Old Board of Commissioners Will Meet and Vacate For New Board—Will Elect Chairman, Who Will Administer Oath to Other County Officials—Fiscal Year Began on Thursday—The New Officers and Assistants.

The present Board of County Commissioners will meet for the last time Monday morning at which time the newly elected commissioners will take the oath of office, administered by Clerk of Court Clapp. The board will then dissolve and the new board will hold its first session. The first business will be the election of a chairman. While little has been said regarding the matter it is believed that Mr. J. A. Davidson, who has been chairman for a number of years, will be again chosen for this important position.

The first business after the organization of the board will be the administering of the oath to the several county officials and the arranging of their bonds. The oath will be administered by the chairman of the board.

The officials who will take the oath are B. E. Jones, sheriff; Jas. W. Forbis, clerk; W. H. Rankin, register of deeds; G. H. McKinney, treasurer; W. W. Wood, coroner; F. L. Foust, surveyor. The new board of commissioners will be composed of J. A. Davidson, W. C. Tucker and W. G. Bradshaw, of the present board, and W. C. Boren and J. A. Rankin.

The present auditor, Leslie Abbott, will be retained by the new board. Sheriff Jones will have J. H. Shaw as of-fice deputy. Clerk Forbis will have Mr. M. W. Gant, of Stokesdale, as deputy. Mr. W. P. Beall, Jr., who has been deputy to Clerk Ernest Clapp for four years, will remain in the office for several weeks to assist the new officials in the work and to straighten out the unfinished business of the present clerk. Register of Deeds Rankin will be assisted by Roy Jones as chief deputy and Willis Booth as assistant. So with the exception of the clerk's office but few new faces will be seen around the court house.

The Board of Commissioners will have several matters to attend to at their first meeting, it being one of the two regular meetings of the year and can continue in session for as many days as are deemed necessary. At all monthly meetings, excepting June and December, the time is limited to two days for each session. There are a number of officials to be appointed, but this will hardly be done at the first meeting. The annual reports will not be ready by next week, but will probably be gotten out by the middle of the month. The report will show the smallest amount of unpaid taxes of any made in years.

The fiscal year began Thursday.

AFTER SCHOOL CLUB.

One to Be Organized in Greensboro Next Thursday Afternoon.

A number of interested, earnest, cultured women in Greensboro have enrolled in the After School Club of America, in order to get the benefit of its unique educational advantages, and at a meeting to be held next Thursday afternoon, Dec. 8, they will organize themselves into a local home and school association—the object of which will be to bring the home and school into closer relation.

The After School Club of America, which has its main office in Philadelphia is an organization of able educators and experts in child training for counsel with mothers and teachers, and wise comradeship for children and youth. It is a response to the demand which the childhood of the age is making on the women of the age, the aim being to give children the best possible opportunities for mental, moral and spiritual growth.

Mr. and Mrs. John Torquille Brooks Shaw request the honor of your presence at the marriage of their sister, Susan Carolina Shaw, to Mr. Norton England on Thursday afternoon, December the eighth, nineteen hundred and ten, at six o'clock, Greensboro, North Carolina.

LAST SESSION OF CONVOCATION

Communion Service—Addresses Morning and Afternoon by Prominent Speakers—Closing Session at 8 O'clock—Delightful Reception at Y. W. C. A.

Yesterday morning at seven o'clock at Holy Trinity church there was a communion service, and at ten o'clock morning prayer, followed by several addresses, which were delivered according to the program for the day. Rev. W. J. Smith, who was to have spoken at this time on the work of the Thompson Orphanage, was absent, and his address was reserved for the afternoon session.

In the afternoon Rev. George W. Lea, rector of St. Mary's School at Raleigh, told of the work and progress of St. Mary's.

At 8 o'clock a laymen's service was held, at which time Mr. James Ker, Jr., of Charlotte, addressed the members on the work that a layman can do.

At the close of the evening service, the members and delegates went to the rooms of the Y. W. C. A. to attend a reception given in their honor by the ladies of the association. The Episcopal girls of the Normal College joined with the ladies of the Y. W. C. A. and Holy Trinity in doing honor to the visitors, and the occasion was one of much pleasure and enjoyment.

HOKE SMITH MAY BE SENATOR

But He Hesitates To Force a Special Election For Governor in Georgia.

Washington, Dec. 2.—Georgians who arrived today say that while the Legislature will not meet until next June the contest for the seat of the late Senator A. S. Clay will resolve itself into a contest between Governor-elect Hoke Smith and former Governor Joseph M. Terrell, who will be sworn next Monday to fill Senator Clay's seat until the legislature meets.

Governor-elect Smith has a majority of 50 in the Legislature, and his friends say he can be elected if he will only say the word. The Legislature will meet the last Wednesday in June, and Governor Smith will be inaugurated the following Saturday. There is no Lieutenant Governor in Georgia, and if Mr. Smith were to be elected Senator after his inauguration the State would be put to the expense of a special election to elect a new Governor. John Marshall Slayton, a lawyer, of Atlanta, who will probably be the president of the Georgia Senate, would, under the Constitution, serve as Governor pro tem. for 60 days and call the special election.

Mr. Smith and his friends doubt the propriety of forcing a special election on the state. Mr. Terrell demands that a Senatorial primary be held to instruct the legislature as to the choice of the voters for Senator. Even if such a primary is held, Terrell could hardly win against Smith, and Georgians believe Terrell's demanding a primary is merely to embarrass Smith.

The calling of the primary will be left to William Wright, of Newnan, a Smith man, who is chairman of the Democratic State Central Committee. Georgians say that if Smith wants a primary there will be one; if he is against it, there will be no primary.

Ex-Governor Terrell will arrive in Washington Sunday. Besides being twice Governor of the State, he was once its Attorney-General.

Police Unable To Cope With Thieves.

During the past few days thieves have been quite busy in Greensboro, no less than a dozen places having been entered in the last two weeks. Wednesday night several places were entered, one place was entered Thursday night and last night one store, Dorsett's bicycle shop, was broken into. The police are working on the cases, but the force is handicapped on account of lack of men. With only four men to cover the entire city it is impossible to do as effective work as should be done. Chief Neelley has at times stated to the Board of Aldermen the need of extra men, especially at night, but the police committee considered the present force enough. Within the last week enough goods have been stolen to pay the salary of an officer a month.

ABELL EXPLAINS FAKE TELEGRAM

Message Was Phoned Not Telegraphed.

Through Counsel Attorney States That His Anxiety Over Wife's Condition Caused Him to Forget to Explain That Message Was Not In Form of Telegram—A Hung Jury In Blockading Case—Two Corporations Chartered

Raleigh, Dec. 2.—In the Federal court this morning Ed. S. Abell, the Johnston county attorney, presented his explanation of his action and intent in procuring the continuance of a case Wednesday through showing to Judge Connor and other court officers what appeared to be a telegram to him from Smithfield telling him that his wife was very ill and that he must come home at once when investigation, made after Mr. Abell had left for his Johnston county home, showed that there had been no telegram received here for him.

Mr. James H. Pou was present as counsel for him and explained to Judge Connor that the message from Mr. Abell's home came over the telephone and not the telegraph line. Furthermore, that as soon as he was told over the telephone by his daughter that Mrs. Abell was so ill he determined to go at once and wrote a telegram to Smithfield for a lack to meet him. Then, using the same telegraph blank pad—the most convenient paper at hand—he reduced to writing the message he had received over the telephone. He insists that he intended no deception as to the message being a telegram and that only the great anxiety he was under over the news from home caused him to fail to explain to the judge that the message was not a telegram when he handed it to him.

With this explanation of the matter Judge Connor ordered the dismissal of the rule against Mr. Abell to "show cause as to contempt and explained that when the message was handed to him Wednesday he had no other idea than that Mr. Abell presented it as a telegram just received. Then followed statement by District Attorney Seawell that he understood that Mr. Abell or his friends were blaming him as acting through malice or some such thing in the case and that there was no such actuation. Judge Connor declared that no such thing should be imputed to the district attorney, but that his conduct in the premises had been commendable in every way.

The secretary of state chartered two corporations today. The Ivey Wholesale Millinery Co., Charlotte, capital \$125,000 authorized and \$10,000 subscribed more especially for paper box making. A. and the Galloway Dairy Co., Mecklenburg county seven miles from Charlotte, capital \$2,500, by A. M. Had-don and others.

Rev. H. M. White, father of Rev. W. Mc C. White, pastor of the First Presbyterian church of this city, died at his home in Winchester, Va. Yesterday aged 77 years. He had been ill of pneumonia several weeks and his son had been with him a week or longer.

The Federal court has a hung jury in the Chas. Howard case in which the defendant, a prominent farmer of this county is accused of blockade distilling. The case was given to the jury last evening and it is still out. There is a second case against the same defendant awaiting trial. Judge Connor today sentenced Essie Greer, a woman, to two years in the Atlanta prison for breaking into the postoffice at Stovall.

FARMERS' UNION WILL MEET HERE

Annual Session to be Held Dec. 14, 15.

The Sessions Will Be Held At State Normal and Industrial College—Large Number of Prominent Farmers From All Parts of the State Expected to Be Present—Remarkable Growth of Union During Year Just Closing.

The North Carolina Farmers' Union will hold the annual session at the State Normal and Industrial College on Wednesday and Thursday, Dec. 14 and 15. The attendance will be representative, it being estimated that fully four hundred prominent farmers will be here from all parts of the state. Dr. H. Q. Alexander, of Charlotte, will preside over the sessions.

The reports will show a remarkable growth since the last session was held here just a year ago. At that time there were 936 locals, while there are now more than 1,500. The membership last December was 20,000, while it is now more than 40,000. There were 45 county unions last year, while 65 will send in reports at the annual meeting. Last year there was a balance of \$3,631.04. Now the balance is more than \$10,785.00.

A number of matters of importance will come before the Union for consideration, one of which will be the report of the educational committee. The committee has for some time been consulting with leading educational men regarding the establishment of county agricultural schools and the coming legislature will be asked to pass legislation looking toward this end, if the committee deems it practical. It is believed that the county should contribute a certain amount, this to be duplicated by the state. However, until the committee reports at the annual meeting it is not known just what legislation the Union will ask for.

The farmers will be here two days, holding about five sessions. At the same time the Guilford Poultry Association will be holding its meeting and the farmers will attend the show as the guests of the poultrymen. This will be a big advertisement not only for Greensboro, but for those who enter poultry for the affair will be talked all over the state. In this way the owners will be benefited. It is believed that a look through the show will make many farmers see the advantage of having thoroughbred poultry on the farm.

At the last session officers for the ensuing year will be elected and numerous committees appointed.

In the Carolina Union Farmer, the organ of the Union, Editor W. C. Crosby says regarding the work of the past year:

"Two weeks ago we promised to print things in this issue that would make our Tar Heel Union men glad they are living. We believe we are keeping that promise.

"Our record for this year is one to be proud of—one to brag about. Within the year, we have more than doubled our membership, standing now at the very head of the list in number of paid-up members. Moreover, by the end of the year, we will have almost doubled the number of local and county organizations in the State. Indeed, during this year, the union in North Carolina has grown and spread like a tree planted by the river's side—and like that tree, it is bringing forth its fruit in its season. Comparatively speaking, only a small portion of the fruit has yet ripened; but the tree is chock full of buds and blossoms and half-grown fruit which, in due season, will mature a bountiful harvest, if only we will give it proper care and attention.

"There are five men in the State Union who, a few weeks ago, heard the general manager of one of the largest fertilizer concerns in this country complain that the Farmers' Union is standing between them and a fair price for their goods. He argued that people paid \$24.00 per ton for 8-2-2 fertilizer when cotton was selling at 5 cents per pound; and now, since cotton (and everything else) is selling for three times as much as it did then, \$30.00 per ton would not be too high for this same fertilizer. In other words, he said that fertilizer is the only standard commodity that is selling for less now than it did a few years ago. Here is a confession, then, from the manufacturer that the State Farmers'

Union is saving the farmers of North Carolina from \$5.00 to \$15.00 on every ton of fertilizer bought.

"Our educational campaign has been carried forward with energy. The people are aroused along this line as never before. This has brought about an indefinable spirit of progress that shows itself in a thousand ways. We have this year produced a million bushels more corn than last year, with a corresponding increase in other food and feed products. We have taken a long step toward living at home.

"Our people have begun to see the wisdom of co-operating in a business way. Our State Business Agency has done an enormous business—and this will be doubled before next year is half gone. There is nothing beyond our power if we stay by our plans."

AGRICULTURAL ASSOCIATION TO MEET NEXT SATURDAY

Will Sell Corn Donated Towards Prizes To Be Given Corn Growers.

Secretary T. R. Foust is sending to the members of the Guilford County Agricultural Association letters reading as follows:

On Saturday, Dec. 10, at the court house, there will be a meeting of the Guilford County Agricultural Association and the boys who have been in the contest during the past year. Each man and boy who entered the contest will bring a bushel of corn as a donation to the association. This corn will be sold at public auction in the court house to the highest bidder. This will be seed corn, and, therefore, it is a good opportunity for one who wishes to buy some of the best corn in the county.

In addition to the above, Mr. T. B. Parker, of Raleigh, and Prof. I. O. Schaub have both promised to meet with us and talk to the boys and farmers of the county. Messrs. Parker and Schaub are two of our leaders in agricultural thought and speech. This will be a rare opportunity for the farmers of the county and those interested in the agricultural development of Guilford. Everybody interested in the boys, in corn growing, and agriculture generally should meet at the court house on Saturday, Dec. 10th, at 10 o'clock. It will be a day of enjoyment and profit to all.

Washington, Dec. 2.—With 14 rat bites on her body Liebe Lewis, the 2-year-old daughter of M. Lewis, of this city, is dying of blood poisoning. A short time since Mrs. Lewis was awakened by the child's cries. Lighting the gas the mother saw a big rat disappear. A physician was summoned and the wounds were cauterized, but the child did not escape infection.

DEAN SOUTHWICK IN "THE RIVALS"

Delighted Large Audience Last Evening.

Is Unrivaled As An Impersonator—Held Audience Spell Bound For Two Hours—Alone As Exponent of the Classical Dramas—Recited Before Normal Students Yesterday Afternoon—Goes to Washington.

Dean Henry Lawrence Southwick began his lecture last evening at the West Market church annex on time to the minute. Greensboro people are not always prompt in their attendance at evening entertainments, and many of them, true to custom, were tardy last night; but within half an hour after the opening of the program the house was well filled.

Mr. Southwick came to Greensboro with a reputation unrivaled as a lecturer and impersonator, and well did he maintain this reputation by his most excellent work last evening. He has an interesting personality, a fine physique, and his enunciation is both beautiful and delightful. He is, without a reasonable doubt, in the field alone as an exponent of the classical dramas.

He appeared last evening in Sheridan's "The Rivals." The most laughable character in this play is Sir Anthony Absolute, an old gentleman with the goit and a severe temper. Mr. Southwick's impersonation of this very odd character is marvelously true to life. But he is possessed of such powers of versatility that any one even moderately acquainted with the play could follow him from one character to another without being made aware of the name of any one of the principals. Old Mrs. Malaprap, whose daughter Sir Anthony wished to have his son marry, and who, when endeavoring to appear learned, made such a blunder in the use of her metaphors and rhetorical diction, would not have provoked more laughter, had she been present in her own person, than did Mr. Southwick in his inimitable mimicry of her. And in his description of the duel which Bob Acres unwillingly forced himself into, he perhaps has had a rival—Joseph Jefferson; but even this might be considered problematical.

It is, indeed, difficult to conceive how his work could be surpassed without the aid of scenery and stage settings.

Yesterday afternoon Prof. Jackson accompanied Mr. Southwick over the grounds and through the buildings of the Normal College. While at the college he entertained the young ladies for a few moments, and expressed himself as being as much pleased as were the students themselves, which was accepted as no small praise, as the young ladies have certainly not had a more delightful entertainer at the college this season.

Mr. Southwick left the city last night on No. 38 for Washington.

EDITORS TO WINSTON.

Press Association Will Meet There On January 30-Feb. 2, 1911.

At a meeting of the executive committee of the North Carolina Press Association at the Hufnagle Hotel yesterday afternoon the invitation from Winston-Salem was accepted and the next meeting of the editors will be held in that city Jan. 30-31, Feb. 1-2.

Secretary of the Board of Trade J. S. Kuykendall, Editor H. B. Gunter, of the Winston Journal, Messrs. W. D. Jackson and A. H. Galloway represented Winston and pressed the invitation, promising as a sideline a trip over the South-bound railroad as the guests of President Fries. Secretary C. C. McLean, of the Chamber of Commerce, and Editor W. I. Underwood presented an invitation from Greensboro, but the committee decided in favor of Winston.

HIS HAND AMPUTATED.

Mr. H. L. Cannon Victim of Painful Accident Yesterday Afternoon.

Yesterday afternoon while feeding a corn shredder Mr. H. L. Cannon, who lives east of the city, in some way had his hand caught in the teeth of the machine and before it could be gotten out the member was so badly lacerated that amputation was necessary.

The operation was performed by Drs. Turner and Reap, who were hurriedly summoned. The hand was cut off just above the wrist.

is physical strength and bodily health. The bread winner can't afford to give out.

It is a vital necessity that he keep his nervous and muscular system in good condition to withstand the daily wear and tear of life.

Those who are run-down, weakened or nervous should remember that nothing excels Vinol, which is a combination of the medicinal elements of the cod's liver and tonic iron, to strengthen the digestive organs, create an appetite, make new blood and restore strength.

Prof. James Mitchell, of Jasper, Ont., says his system was run-down to a critical point from overwork. A friend told him to take Vinol. He did so and is now enjoying perfect health, and he considers Vinol a wonderful tonic. (We guarantee this testimonial to be genuine.)

We ask every run-down, overworked, weak person in this vicinity to try a bottle of Vinol with the understanding that their money will be returned if it does not do all we claim for it. Fariss-Klutznick Drug Co., Greensboro, N. C.

J. J. Foster, Mendenhall St., Burlington, N. C., says: "I suffered from kidney complaint for a long time. I had severe pains through the small of my back and was caused annoyance by irregular passages of the kidney secretions. I also noticed that the kidney secretions contained sediment, and were unnatural. While I was suffering from a severe attack of that kind, I procured a box of Doan's Kidney Pills and their use gave me permanent relief. It is with pleasure that I express my high opinion of Doan's Kidney Pills."

CRESCENT CITY VS. THE GOLDEN GATE

Who's on the South Side?—From a Battle of Cities Contest Suddenly Flamed Into a Match of Railroads and Millions.

Washington, Dec. 1.—Transcontinental and Southern railroads today lined up for a struggle, suddenly raising the issue between San Francisco and New Orleans for the exposition celebrating the opening of the Panama Canal from a fight between cities to a great contest between financial, commercial and political interests.

The New Orleans lobby was complacently confident last week, one of its members declaring that New Orleans had an easy majority of 83 votes in the House. But when the Harriman agents arrived and the extent of San Francisco's strength became partially apparent, the New Orleans representatives were panic-stricken.

The railroads line-up follows: For San Francisco—Southern Pacific, Union Pacific, Central Pacific, Northern Pacific and allied lines.

For New Orleans—Pennsylvania, Louisville & Nashville, Southern Railway, Atlantic Coast Line and allied lines.

The Pennsylvania was neutral until yesterday, when the New Orleans delegation declared the Pennsylvania had lined up with the Southern crowd. The railroads expect that the exposition will be the greatest drawing card in the history of the country, and they estimate the receipts from passenger traffic resulting from its way up in the millions.

New Orleans is bringing heavy pressure to bear on the Southern Pacific Railroad, which has big terminals in the Crescent city. It was said at the New Orleans headquarters today that a committee of representative business men had sent the following telegram to the New York headquarters of the line:

"If you do not withdraw your support from San Francisco and stay out of this fight, it will cost you \$18,000,000."

The Southern Pacific has many concessions and desires more from New Orleans, but the San Francisco representatives declared that nothing could turn the Southern Pacific support away from San Francisco.

With the powerful political and financial influence of the Pacific Coast suddenly swung into full play on the situation, and with such lobbies as have seldom been seen in Washington in advance of a session, the fight for the fair suddenly became today one of the leading issues of Congress.

The contest was waged in a comparatively mild form at the last session, and action was postponed until this winter. In the meantime both cities have been pulling every available string. Each city wants the official endorsement of Congress and wants the Government to invite the nations of the earth to participate in the celebration.

Saved From Awful Death.

How an appalling calamity in his family was prevented is told by A. D. McDonald, of Fayetteville, N. C. R. F. D. No. 8. "My sister had consumption," he writes, "she was very thin and pale, had no appetite and seemed to grow weaker every day, as all remedies failed, till Dr. King's New Discovery was tried, and so completely cured her, that she has not been troubled with a cough since. Its best medicine I ever saw or heard of." For coughs, colds, lagrippe, asthma, croup, hemorrhage—all bronchial troubles, it has no equal, 50c, \$1.00. Trial bottle free. Guaranteed by Fariss-Klutznick Drug Co.

An Economist.

"Of course," said Mr. Sirius Barker, "I want my daughter to have some sort of an artistic education. I think I'll have her study singing."

"Why not art or literature?"
"Art spoils canvas and paint and literature wastes reams of paper. Singing merely produces a temporary disturbance of the atmosphere."—Washington Star.

Take Care!

Remember that when your kidneys are affected your life is in danger. M. Mayer, Rochester, N. Y., says: "My trouble started with a sharp shooting pain over my back which grew worse daily. I felt sluggish and tired, my kidney action was irregular and infrequent. I started using Foley's Kidney Pills. Each dose seemed to put new life and strength into me, and now I am completely cured and feel better and stronger than for years." Howard Gardner.

Progress.

"How is your wife getting on with her social settlement work?"
"Great! She had her picture in the paper twice this month."—Detroit Free Press.

Worse than an alarm of fire at night is the metallic cough of croup, bringing dread to the household. Careful mothers keep Foley's Honey and Tar in the house and give it at the first sign of danger. It contains no opiates. Howard Gardner.

J. D. ARCHBOLD A CLIMBER.

Mounts 13 Stories to Office—Good Record for H. M. Flagler.

New York Tribune.

It is popularly supposed that there are no necessities of life that a millionaire, and especially a Standard Oil millionaire, cannot obtain at will, but the Standard Oil men disproved that impression yesterday. An elevation in a skyscraper may be regarded as a necessity for occupants of offices in the upper levels of the building, for the alternative to its use is an exhausting trudge up many flights of stairs, and that trudge fell to the lot of everybody having business in the 15-story Standard Oil building yesterday, for the feed pipe which supplies the hydraulic pumps operating the ten elevators broke early in the morning and the elevators were out of commission all day.

The venerable Henry M. Flagler, who is 80 years old, was forced to climb to his office on the eighth floor. John D. Achbold, vice president of the Standard Oil Company, is a good many years younger than Mr. Flagler, but the difference in age was partly compensated for yesterday by the fact that Mr. Archbold had to mount 13 stories to reach his office.

He took the mishap philosophically, however, saying as he began his slow ascent, which was relieved by frequent pauses for rest: "Well, I guess I can stand it if the others can." When he got to the thirteenth floor he was still cheerful and unspent, and remarked: "That was not so bad after all. If we could do that everyday our surplus flesh would soon disappear."

You Must Read This if You Want the Benefit.

J. W. Greer, Greenwood, La., suffered with a severe case of lumbago. "The pains were so intense I was forced to hypodermic injections for relief. These attacks started with a pain in the small of my back which gradually became fairly paralyzing. My attention was attracted to Foley's Kidney Remedy and I am glad to say after using this wonderful medicine I am no longer bothered in any way by my old enemy lumbago." Howard Gardner.

GRAHAM-WHITE'S CASH.

English Aviator Sails for Home With \$75,000 Earnings.

New York Tribune.

Claude Grahame-White, the English aviator, who made a comfortable fortune in this country during the last three months, sailed for Liverpool yesterday on the Cunard liner Mauretania. He was not inclined to state the exact amount of his earnings for exhibition flights and prizes, but his friends declared that it was more than \$75,000.

He took most of his American earnings with him in cash, and was determined yesterday that he would not exhibit it on deck during a gale. When it was suggested that he had money to burn, a friend of the aviator remarked that he should have had it insured so that he could get a rebate if he chanced to burn any of it.

It is really wonderful how quickly Vick's Croup and Pneumonia Salve breaks up a cold, croup or pneumonia symptoms. Just rub it on. Keep a jar ready.

Sensitive on That Point.

"What's your name?" the three other men asked him.
"John Potter," answered the stranger, who had accepted an invitation to take the fourth hand in a game of cards.
"That's all right; we'll call you—"
"No, you don't! The first saloot that calls me Jack Potter will get the map of his face changed!"—Chicago Tribune.

Ends Winter's Troubles.

To many, winter is a season of trouble. The frost bitten toes and fingers, chapped hands and lips, chilblains, cold sores, red and rough skins, prove this. But such troubles fly before Bucklen's Arnica Salve. A trial convinces. Greatest healer of Burns, Boils, Piles, Cuts, Sores, Eczema and Sprains. Only 25c. at Fariss-Klutznick Drug Co.

The Girl Who Lives Alone

whether she attends college or goes to business, needs the Perfection Oil Heater. It will heat a cold, cheerless boarding house or dormitory room and make it livable. It is always a ready help in the many things women do for themselves in their rooms. With the damper top open, it will heat water for tea or cocoa; it will dry the small articles that a woman prefers to wash herself in her own room. It will quickly heat an iron or curling tongs; quickly dry wet shoes or skirts—an ever ready help for the woman who lives alone, dependent on her own resources. The

is invaluable in its capacity of quickly giving heat. It will burn nine hours with one filling. It is safe, smokeless and odorless; has a cool handle and a damper top.

An indicator shows the amount of oil in the font. The filler-cap is put in like a cork in a bottle, and is attached to the font by a chain. It has an automatic-locking flame spreader, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so the wick can be quickly cleaned.

The burner body or gallery cannot become wedged, and can be unscrewed in an instant for reworking. Finished in japan or nickel, strong, durable, well-made, built for service, and yet light and ornamental.

AN OLD MAID'S HERO

By M. QUAD

Copyright, 1910, by Associated Literary Press.

Miss Amanda Perkins was an old maid. She had never loved. Her brother Ben, who was a farmer and a widower, took her for his housekeeper. Abe Smith came to work as a hired man for an adjoining farmer. Abe was an old bachelor.

It was fate that brought Amanda all the way from Indiana. It was fate that finally brought the two faces to face. Abe had hardly got through asking Amanda for the loan of a hoe when he found his heart tinking with a strange tunk.

Two weeks after the Hoosier's appearance a band of gypsies came along the road, and in return for some cold victuals one of the women told Amanda's fortune.

"You will marry," she started off. "It seems impossible."

"But the stars say so, and they are never mistaken."

"What sort of husband will he be?" blushing asked the old maid.

"A hero. You will not know that he is a hero for some time, but it will suddenly come to pass. He will save your life from indignant insects. I cannot say whether they will be grasshoppers or not."

The next time Abe called Amanda looked him over and decided he was no more of a hero than the gatepost. He didn't look it nor talk it, and therefore when he told his love and asked for her hand she replied:

"I shall never marry any one but a hero."

"But I'm one. I fit into the Spanish war, and lands save you, but how I mowed 'em down!"

But Abe was thrown down. Amanda's brother liked him, but that didn't count. She had asked Ben what particular insects got indignant, but he couldn't give her the information. He had never seen a beetle or a grasshopper mad, but he had never poked either with a stick. The Hoosier had arrived in the early spring. In May he renewed his offer of matrimony. He had an affectionate disposition and \$100 in his trunk.

"You are as good as any one around here, Abe," replied Amanda, "but the stars have settled it for me."

"The stars be hanged! The stars have about as much to do with marriage as the June bugs!"

"But he is to be a hero."

"Well, dig it, ain't I one? I've never bragged much about how I mowed the Spanish down, but I'll say to you right here and now that I killed seventeen of 'em."

"Why, that was brave of you."

"I should remark, but I'm not boasting of it. If the battle had lasted a little longer I'd have made the number twenty."

"But the gypsy said it would be some one who would save my life. I'm kinder liking you, Abe, but I don't go back on the stars and the gypsy."

Abe came over on a dozen occasions in June and said nothing further, although he was more determined than ever. It was the first of July before he got around to say:

"You might as well be bridal tawling around as washing taters here. What's the use of fooling about a thing of this kind?"

"The hero may be along any day now," was the reply.

"Say, Manda, that gypsy must have meant me. She sure did. I've been counting up since I told you I had killed seventeen Spaniards, and I find the number was twenty-seven. I added them up wrong. Do you want any bigger hero than that?"

"Lands, Abe, but how you must have fit!"

"Fit! Well, I guess yes! I was there to do it, and I mowed 'em. Lemme get the preacher tomorrow."

"None. I've got to go by what the stars say."

There weren't any stars out next afternoon and no gypsies around when Amanda started across the meadow to gather cowslips at the pond. Swinging a basket in her hand and humming a tune, she walked right into a bumblebees' nest. The hero was right over in the next lot giving the corn a second hoeing. He heard screams. He heard yells. He heard walls for help. He ran to the fence and saw Amanda hopping and running and dodging and using her sun-bonnet as a weapon.

"Humph!" grunted Abe as he cut with his knife and cut a thick topped bush. "There's the indignant insects, and by gum if here ain't the hero! Amanda Perkins, you are mine!"

There were half a hundred bumblebees. They were thoroughly indignant. They made it lively for Amanda, and they had plenty left over for Abe, but a hero always conquers. The suffering hero picked the suffering heroine up in his arms and toted her to the house and dropped her on the floor to say:

"There! If you are looking for any more heroes and indignant insects I'll take you back!"

"Oh, Abe, am I rescued?" was wailed.

"Yes, the biggest part of you, and don't you try it again. As soon as these lumps go down it's the preacher for us."

"But the hero?"

"You can't see him, but he stands before you and has all the time. Durn my cats, what else can you call a feller who fit into the Spanish war and mowed thirty-five of 'em down?"

NIP IT IN THE BUD.

First Appearance of Dandruff a Forerunner of Future Baldness.

That such is the case has been conclusively proven by scientific research. Prof. Unna, the noted European skin specialist, declares that dandruff is the burrowed-up cuticle of the scalp, caused by parasites destroying the vitality in the hair bulb. The hair becomes lifeless, and, in time, falls out. This can be prevented.

Newbro's Herpicide kills this dandruff germ, and restores the hair to its natural softness and abundance.

Herpicide is now used by thousands of people--all satisfied that it is the most wonderful hair preparation on the market to-day.

Dr. Cook's fate will probably have the effect of deterring from attempting to reach the pole those who wouldn't recognize it if they were to get to it.

High Point is making considerable of a noise about that proposed new county, but of course the main trouble that High Point is going to have will be after the Legislature meets.

Roosevelt is fast slipping into that unenviable obscurity which follows the closing chapter of "what might have been."—Asheville Citizen.

Roosevelt is lying as low in New York State as Marion Butler is in North Carolina. Neither one can come back.

In England the conservatives are whooping it up for the referendum, while the Liberals are declaring the referendum to be a delusion and a snare. Imagine the Liberals or Progressives in this country fighting the referendum; things are all topsy turvy in England anyway.

An exchange philosophically observes that there's no good in kicking about the cold weather, seeing that we can't reasonably expect hot weather until June. It's the time of year for cold weather and reasonable weather is the kind that usually gives the most general satisfaction.

Dr. Cook's confession that he was probably mistaken in thinking that he reached the pole means of course a renewal of discussion touching the pole. And in this connection, it is pertinent to remark that nobody seems to have reaped any benefit from the discovery except Peary. We don't believe the old spindle is what it was cracked up to be.

The President's message is said to be between thirty and forty thousand words in length. This seems to indicate that Mr. Taft is copying after Theodore Roosevelt who always wrote messages of record-breaking length. And this is just the time, too, when one would expect that Taft wouldn't follow Roosevelt's example.

An R. F. D. subscriber was in The Telegram office yesterday and voiced the opinion that Jintown would be made the State capital about as soon as High Point would be made a county seat. Mainly there is one man who has made up his mind on the matter of the new county. But we think it our duty before leaving the subject to gently chide him for reflecting on Jamestown. There's nothing the matter with that town.

As the Morehead wing of the Republican party succeeded in getting a severe beating administered to the party, it does not look as if Butler, Morehead & Co. could do much in the way of securing Federal patronage for their friends. Perhaps they could not at all except for the fact that the administration wants to keep in the good graces of both wings of the badly divided North Carolina Republican party. Of course the great question is now, Who will get the District Attorneyship? We will hazard the guess that a Greensboro man and not a Winston-Salem man will be the winner.

In the government's brief in the Sugar Trust case, it is alleged that the late H. O. Havemeyer received ten million dollars of the common stock of the National Sugar Refining company as a bonus for taking four independent sugar companies into the combination. "This is precisely why such syndicates are formed," comments the New York World, "not to effect economy in management, not to promote industrial efficiency, not to avoid the evils of excessive competition, not to reduce prices; but to enable

the insiders to make millions out of the deal." Of course it is possible that the government may not sustain its contention that Mr. Havemeyer made that ten millions so easily. But most probably the government is prepared to prove that very thing. Certain it is that some of the millions of the multimillionaires are in no sense fairly earned. When a man's wealth reaches a certain figure the time comes when, as the Scriptures say, "to them that hath it shall be given."

Opening at Bernau's.
R. C. Bernau, the jeweler, held his formal Christmas opening yesterday and throughout the day the store was thronged with visitors. To each visitor was given a beautiful souvenir. The store was handsomely decorated and the array of jewelry was tastefully arranged, there being such a display that it will be easy to select a suitable Christmas present if something in the jewelry line is desired. The opening will continue through today.

AND WE KNOW HOW TO DO IT, and have some of the best companies to do it with.

If you want to enjoy the real spirit of Christmas give the small man, the fellow on the bottom round, a lift. He is the one that needs it and not the man already at the top.

We will appreciate a small part of your business, not as a charitable gift but as a sign of your good will toward the fellow that is trying to do something for himself.

LATHAM QUILTS FLYING.

"Aviators at Meets Now Are Showmen; I'm Not a Showman," He Says.
New York American.

It developed yesterday that Hubert Latham, the pioneer French aviator, who stole out of the United States on November 19, made his last public appearance as a professional flyer at the meet in Baltimore. Just before he sailed on the America he confided to friends in this country that he would essay no more flights in the Antoinette monoplane, which he has made famous. He said that he was moved to this decision by the action of his friend, Count Jacques De Lesseps, who announced he would fly no more when his engagement to Miss Grace MacKenzie, of Montreal, was published. Miss MacKenzie made the abandonment of his aeroplane a condition of their engagement.

"Yes, I've decided to quit," said Latham just before he sailed. "I've continued to fly mainly to keep De Lesseps company. All the present company of fliers are practically youngsters. With De Lesseps out of the sport, the last of the veterans, I feel lonely. It is degenerating into a commercial enterprise. There is too much of the business side to suit me, and there are more and more accidents of the Johnstone type."

"I accepted money as prizes, but it cost me more than I won. Yet I risked my life for gold dollars. I'm through doing that. I want to rest. Perhaps in four or five years I'll take the sport up again. Then it will be more of a sport. They will have made aeroplanes safer."

"Until that time, I'm going to leave it to others. I admire them all and can praise them in the highest terms, but they are not the same people I was associated with when we started. Aviators at meets are now showmen. I am not a showman."

Latham lives in France and is very wealthy. He is an officer of the aeronautic branch of the French army. His only aerial activity will be in connection with the annual maneuvers of the French army.

Dad push your boy on and help him to get the bicycle at the Greensboro Drug Co. by selling Mother's Joy. It is a great lesson to him.

Failing a Fakir.
A story used to be told at Cairo of Sir Richard Owen during one of his sojourns in Egypt. The great naturalist was seated in the shade on the veranda at Sheppard's hotel when the inevitable snake charmer came to him and produced from his bag a lively specimen of the horned asp—the deadly cerastes. The professor gazed and, nothing daunted, stopped and plucked the horns from the head of the reptile wriggling at his feet, remarking to a bystander that the man would probably think twice before trying to palm off upon any one else a harmless snake as a cerastes by the aid of a couple of fish bones. With anybody else the charmer would probably have succeeded. He had tried it on the wrong man.

An Antiseptic Child.
Little Walter was always carefully guarded against germs. The telephone was sprayed, the drinking utensils sterilized and public conveyances and places were forbidden him.
"Father," he said one night in a tone of desperation, "do you know what I am going to do when I grow up?"
"What?" asked his father, preparing himself for the worst.
"I'm going to eat a germ."—Success Magazine.

His Style.
Agent—Did you find a suitable house for that customer who seemed so chummy?
Assistant—I did my best, sir. I recommended him one with a swell front.—Baltimore American.

Then He Knew of Course.
Husband—Does that new novel turn out happily?
Wife—It doesn't say. It only says they were married.—St. Louis Star.

One kind word may turn aside a torrent of anger.

Boys you have a chance now to win the bicycle. One half of the Mother's Joy has been sold, at the Greensboro Drug Co. We are going to give two watches also, one to the next highest boy's sales, and one to the third highest, and the bicycle to the highest. Greensboro Drug Co.

Foley's Kidney Pills are tonic in action, quick in results, and restore the natural action of the kidneys and bladder. They correct irregularities. Howard Gardner.

The money question usually takes the form of a touch.

Faint?

Have you weak heart, dizzy feelings, oppressed breathing after meals? Or do you experience pain over the heart, shortness of breath on going up-stairs and the many distressing symptoms which indicate poor circulation and bad blood? A heart tonic, blood and body-builder that has stood the test of over 40 years of cures is

Dr. Pierce's Golden Medical Discovery

The heart becomes regular as clock-work. The red blood corpuscles are increased in number—and the nerves in turn are well fed. The arteries are filled with good rich blood. That is why nervous debility, irritability, fainting spells, disappear and are overcome by this alternative extract of medicinal roots put up by Dr. Pierce without the use of alcohol. Ask your neighbor. Many have been cured of scrofulous conditions, ulcers, "fever-sores," white swellings, etc., by taking Dr. Pierce's Discovery. Just the refreshing and vitalizing tonic needed for excessive tissue waste, convalescence from fevers or run-down, anemic, thin-blooded people. Stick to this safe and sane remedy and refuse all "just as good" kinds offered by the dealer who is looking for a larger profit. Nothing will do you half as much good as Dr. Pierce's Golden Medical Discovery.

ANOTHER FAILURE

(From S. F. Bulletin, May 1, '09)

Among many late letters announcing favorable results there are a number from physicians, all of whom have cases of Bright's Disease, and one from Hot Springs, Ark., telling of the recovery of two physicians.

The same week a physician of this city reported a failure. He stated that he was the Compound at the last moment of an extreme case of Bright's Disease and that he had no confidence in the treatment, and as the patient expired a few days thereafter that it confirmed his opinion. The secret of the several successes first referred to lays in the fact that the physicians realizing the limited utility of the orthodox treatment put themselves or their patients in the compound before they were in extremis. Not so in the last case, and the reason for the failure is obvious.

Let us illustrate: We are told that there is a physician in South San Francisco by the name of Gardner who has never had a failure in a case of typhoid fever. We don't know what his method is, but will say that when his fame as a patient to be transferred to his treatment after the attending physicians have declared the case hopeless that his failure will then commence. His success have been in cases that sent for him while there was something to work on.

It is a fact that many cases of Bright's Disease in extremis have been cured, but there is no certainty when the treatment is withheld until the last day. When Fulton's Renal Compound is administered in time it matters little whether the case be chronic or not, nearly nine-tenths get results, the text goes to the contrary notwithstanding. We again say that the mere presence of albumen, casts and dropsy in the urine stage that are supposed to make an incurable case of Bright's Disease now no bar to recovery, providing there is heart and vitality to work on. It is obvious that if the treatment is withheld until there is no recuperative power there will also be failures.

In view of the declared utility of everything known up to the development of Fulton's Renal Compound, we ask in the name of conscience how there can be any question in the mind of any man being as to what ought to be given in such cases and why there should be any delay in giving the only thing in the world that offers hope.

Fulton's Renal Compound can be had in your city of Pariss-Klutts Drug Co. We desire to hear from every case not covered. John J. Fulton Company, 5 Battery street, San Francisco, Cal. Feature mailed free.

Fossils and Gold.

In Alaska the bones and often the entire bodies of extinct animals, such as the mammoth, the mastodon, the reindeer and the bison, are found most abundantly in layers of soil directly above gold bearing gravels. So intimately is this association between fossil animal remains and auriferous deposits that one scientist who has explored Alaska says fossils serve prospectors as indexes of the metallic richness of the soil. In ancient times both gold and the bones of animals were deposited at the bottoms of valleys by action of rivers and smaller streams, many of which have now disappeared; consequently the appearance of fossils is, it is claimed, an almost certain indication that gold will be found in the neighborhood. The cabins of many miners are ornamented with huge tusks and antlers unearthed in the diggings.—New York Tribune.

Definite Instructions.

Telegraphers have their troubles, like the rest of mankind, and the men who follow the dots and dashes tell stories based upon actual happenings that almost test the credulity of the hearer. A man now in charge of a Postal office is responsible for the following, which occurred to him when he was holding down a key in an obscure place in the suburbs:

"A farmer came in one day and handed me a message to 'Mrs. Smith, New York city.' I asked for the address, and my patron, looking at me with a pitying smile, replied:

"Sonny, you just send it to Mrs. Smith, who keeps a boarding house in New York. Don't let any one know you don't know where her place is."—Philadelphia Times.

Followed Instructions.

She was a woman of very puritanical notions, and when she came into his room to kiss her little boy good night and found that he had not said his prayers she was very much shocked. "How was it, Willie," she asked, "that you neglected such an important duty?"

"You see, mamma," he replied, "when dad sent me in a hurry to bed he said there mustn't be another word out of me tonight."—Lippincott's.

Just the Very Trouble.

A French scientist says that the oceans hold enough gold in solution to give each inhabitant of the earth \$24,000,000. The trouble is that they will continue to hold it.—Albany Journal.

Might Be Right.

We have noticed that when two boys are playing with a wagon the smaller boy is pretty apt to be the horse.—Acheson Globe.

Mercy turns her back to the unmerciful.—Quarles.

Get the Genuine Always.

A substitute is a dangerous make shift especially in medicine. The genuine Foley's Honey and Tar cures coughs and colds quickly and is in a yellow package. Accept no substitutes. Howard Gardner.

Draws a Distinction.

"Phew! Rivers, you don't seem to be a judge of cigars." "Oh, yes, I am, Brooks. I know a good cigar when I smoke one. I don't know how to buy 'em, that's all."—Chicago Tribune.

Mamma help your boy to get the bicycle and watches at the Greensboro Drug Co., by selling Mother's Joy. Push your boy on it is a great lesson for him. Greensboro Drug Co.

ROMAN ARENAS.

They Were Not Mere Rings as Those of the Modern Circus.

The arenas of ancient Rome were not, as some people suppose, mere rings or ovals, such as may be seen in the modern circus. They were broken up and varied in character according to the nature of the fighting to be done or to the caprices of those in authority.

On one occasion an arena might resemble the Numidian desert, on another the garden of Hesperides, thick set with groves of trees and rising mounds, while again it pictured the great rocks and caves of Thrace.

With these surroundings the combatants advanced, retreated, encircled their adversaries or kept wild beasts at bay as occasion offered or as their courage or fear suggested. Men combated not only with the more common brutes, but with such monsters as elephants, rhinoceroses, hippopotamuses and crocodiles.

On other occasions flocks of game, such as deer and war ostriches, were abandoned to the multitude, and in some cases the arenas could be turned into lakes, filled with monsters of the deep, and upon the surface of which naval engagements took place.—London Saturday Review.

A Simple Safeguard for Mothers.

Mrs. D. Gilkeson, 326 Ingles Ave., Youngstown, Ohio, gained wisdom by experience. "My little girl had a severe cold and coughed almost continuously. My sister recommended Foley's Honey and Tar. The first dose I gave her relieved the inflammation in her throat and after using only one bottle her throat and lungs were entirely free from inflammation. Since then I always keep a bottle of Foley's Honey and Tar in the house. Accept no substitutes. Howard Gardner.

Wants To Help Some One.

For thirty years J. F. Boyer, of Fertile, Mo., needed help and couldn't find it. That's why he wants to help some one now. Suffering so long himself he feels for all distress from Backache, Nervousness, Loss of Appetite, Lassitude and Kidney disorders. He shows that Electric Bitters work wonders for such troubles. "Five bottles," he writes, "wholly cured me and now I am well and hearty." It's also positively guaranteed for Liver Trouble, Dyspepsia, Blood Disorders, Female Complaints and Malaria. Try them. 50c. at Pariss-Klutts Drug Co.

Mrs. Verna Wallace, of Sanger, Tex., tried Cardui. She writes: "Cardui has done more for me than I can describe. Last spring I was taken with female inflammation and consulted a doctor, but to no avail, so I took Cardui, and inside of three days, I was able to do my housework. Since then my trouble has never returned." Try it.

FLED FROM BOREDOM.**The Tale of a Purposely Interrupted
Yachting Cruise.**

A few seasons back a well known hostess chartered a splendid yacht for August and invited a large number of her friends for a three weeks' cruise. At first all went well, though the party was not specially well assorted, but after a few days they began to evince signs of being somewhat bored with each other's company.

The hostess marked these signs of incipient boredom, which became more plainly evident each day, and at last in despair she took counsel with one of her guests, an old and experienced yachtsman.

"What on earth shall I do to amuse these people?" she asked.

The yachtsman looked at the serene sky and calm, blue water and shook his head doubtfully.

"A storm would enliven them up a bit," he said, "but the weather looks quite settled. There is only one thing to be done. You must arrange a breakdown; the engineer will manage that all right for you. He has probably often done so before. Then you must make for the nearest port for repairs and let your guests have a run ashore. Some of them, I expect, will find an excuse for bidding you goodbye and those who remain with you will get along all right together."

The hostess took her guest's advice and arrived at Toulon a day later, where high twenty of her guests bid her goodbye.—London M. A. P.

THE PRINCE WINKED.

And Miss Alcott Was at the Other End of the Flirtation.

It seems an awful thing, but here is the circumstance on record that Louisa M. Alcott, the sainted author of "Little Women," once publicly flirted with Edward VII. The fact comes out in Mrs. Belle Mose's book, "Louisa May Alcott, Dreamer and Worker." There is a passage in the book which contains Miss Alcott's personal account of the incident. It refers to the time when the late king, then Prince of Wales, made his famous visit to this country.

"I went to Boston," Miss Alcott relates, "and I saw the Prince of Wales trot over the common with his train at review—a yellow haired laddie, very like his mother, Fanny W. and I nodded and waved as he passed and he openly winked his boyish eye at us, for Fanny with her yellow curls and wild waving looked rather rowdy, and the poor little prince wanted some fun. We laughed and thought that we had been more distinguished by the saucy wink than by a stately bow. Boys are always jolly—even princes."

By the way, this incident occurred in 1860, when the Prince of Wales was nineteen years old and consequently quite a broth of a boy, and when Miss Alcott—we blush to record it—was twenty-eight.—New York Mail.

**Delicately
Formed**

and gently reared, women will find in all the seasons of their lives, as maidens, wives and mothers, that the one simple, wholesome laxative remedy, which acts gently and pleasantly and naturally and which may be taken at any time, when the system needs a laxative, with perfect safety and really beneficial effects, is Syrup of Figs and Elixir of Senna.

It has that true delicacy of flavor which is so refreshing to the taste, that warming and grateful toning to the stomach which responds so favorably to its action and the laxative effect which is so beneficial to the system when, occasionally, its gentle cleansing is required.

The genuine, always bearing the name of the California Fig Syrup Co., may be purchased from all leading druggists in original packages of one size only, price fifty cents per bottle.

IT IS ALL RIGHT

to ask a friend to do you a favor when it is impossible to secure the favor in any other way. But why ask a friend to go on your bond as surety when the Greensboro Loan & Trust Company can give better security than an individual at no extra cost for its faithful discharge of its duty as a trustee or executor or administrator. Why should you sign a bond by which your heirs, executors, administrators and assigns are held and firmly bound to pay for the default of others; perhaps after your death, every dollar of your estate? Tell your friend not to burden you with such a grave responsibility. Let the Greensboro Loan & Trust Company become responsible.

Talk this over with us—it will assist you.
